PROFILE SUMMARY

Final-year ICT undergraduate and Full Stack Developer with experience in building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, database design, and software architecture. Experience in Agile development, code reviews, and system optimization. Currently focused on cloud technologies and modern full-stack development.

PROFESSIONAL EXPERIENCE

Apps Technologies Pvt Ltd | Colombo, Western Province, Sri Lanka

Associate Software Engineer | Sep 2025 - Present | Remote

- Coordinate development timelines, task assignments, and team communications to ensure efficient project delivery
- Manage code review processes for pull requests, maintaining code quality standards.
- Develop and maintain full-stack web applications implementing best practices in software architecture and design patterns
- Implement testing strategies and comprehensive documentation to maintain code quality and system reliability

Software Engineer Intern | May 2025 - Sep 2025 | Hybrid

- Developed and maintained full-stack features for SLICM enterprise system using Laravel, Blade, and MySQL
 - Designed and implemented reusable components following MVC architecture, reducing code duplication by 40%
 - Optimized database queries and improved application performance through efficient data modeling and indexing strategies
 - Conducted QA testing, bug tracking, and issue resolution to ensure feature reliability and system stability
 - Collaborated through Git version control, participating in code reviews and following pull request workflows
-

SKILLS

- **Frontend:** React.js, HTML5, CSS3, Bootstrap
 - **Backend:** Node.js, Express.js, Laravel, Django, FastAPI
 - **Databases:** MySQL, MongoDB, PostgreSQL
 - **Tools:** Git, GitHub, VS Code, NetBeans, Eclipse, JIRA, Postman
 - **Testing:** Selenium IDE, Bug documentation
 - **Operating Systems:** Linux, Windows
 - **Soft Skills:** Team Leadership, Project Coordination, Critical Analysis, Problem Solving, Communication, Agile Development, Code Review
-

EDUCATION

UVA WELLASSA UNIVERSITY

2022-Present

Bachelor of Information and Communication Technology (Hons)

Expected Graduation: 2026

GPA: 3.9/4

PROJECT

SkillSwap Platform

- Developed an innovative web platform for seamless skill exchange with intelligent matching.
- Implemented REST APIs, authentication, and real-time chat functionality.
- Technologies: React.js, Node.js, Express.js, MongoDB

Knowledge Sharing Platform

- Built a web platform for knowledge exchange featuring discussion forums, Q&A sessions, and resource libraries to support diverse user needs.
- Technologies: HTML, JavaScript, CSS, Bootstrap, Laravel, MySQL

Master Education Web Platform

- Developed an education platform offering lectures, quizzes, assignments, and discussion forums for enhanced learning experiences.
 - Technologies: HTML, CSS, Bootstrap, PHP, MySQL
-

CERTIFICATIONS

- Web Design for Beginners – University of Moratuwa (2024)
 - Programming in Python – University of Moratuwa (2024)
 - Introduction to Cybersecurity – Cisco Networking Academy (2021)
 - GIT for Beginners – KodeKloud (2025)
 - Participant, UvaXtreme 1.1 Hackathon – IEEE Club, Uva Wellassa University (2025)
-

EXTRACURRICULAR ACTIVITIES

- Event Coordinator, FOSS Community, Uva Wellassa University (2024/2025)
 - Volunteer, IEEE Opening Day (2024)
 - Organizing Committee Member, Leo Chelonian Trails Project (2024)
-
