PROFILE SUMMARY

I am a Software Engineer with professional experience in full-stack development and database-driven applications. Skilled in React.js, Next.js, Node.js, Laravel, Python, and FastAPI, with experience in SQL databases, cloud deployment using AWS and GCP, and Docker. I enjoy solving practical problems, building reliable software, and exploring AI and machine learning technologies. I studied Information and Communication Technology (Hons), specializing in Software Technology, at Uva Wellassa University of Sri Lanka.

EDUCATION

Uva Wellassa University of Sri Lanka

Bachelor of Information and Communication Technology (Hons) - **GPA**: 3.9 /4.0 **2022-2026**

SKILLS

- **Programming Languages**: Java, Python, PHP, JavaScript, C
- **Frontend Technologies**: React.js, Next.js, HTML, CSS, Tailwind CSS, Vue.js**,** Bootstrap
- **Backend & Frameworks**: Node.js, Express.js, Laravel, FastAPI,
- **Databases**: MySQL, MongoDB, PostgreSQL
- **Cloud & DevOps**: Google Cloud Platform (GCP), AWS, Docker
- **Tools & API Testing**: Git, GitHub, Postman, Selenium IDE, TestNG
- **Software Development Practices**: RESTful API Development, Agile Development, Code Review

PROFESSIONAL EXPERIENCE

Apps Technologies (Pvt) Ltd | Colombo, Sri Lanka

Associate Software Engineer | Sep 2025 – May 2026 | Remote

- Developed and maintained robust Laravel web applications, ensuring adherence to MVC architecture, design patterns, and clean code practices.
- Collaborative development by actively participating in GitHub peer code reviews, ensuring high code quality and strict adherence to team standards.
- Supported AWS-based deployment by executing production builds, running database migrations, and configuring servers via SSH.
- Collaborated closely with cross-functional teams to execute QA testing, write comprehensive technical documentation, and ensure on-time project delivery.

Software Engineer Intern | May 2025 - Sep 2025 | Hybrid

- Built and delivered full-stack features for the SLICM SIMS using Laravel, PHP, Blade, JavaScript, Vue.js**,** Bootstrap, and PostgreSQL.
- Designed reusable components and centralized authentication and validation logic to reduce code duplication.
- Optimized PostgreSQL database queries and restructured data models, improving query response times and overall application performance.
- Performed QA testing, bug fixing, and issue resolution to improve feature reliability and system stability.

PROJECTS

UniSchedule – ML Based Smart University Scheduling Research | *Research Lead*

- Developed a full-stack university timetabling system with RBAC, using a Genetic Algorithm (DEAP) for 100% hard-constraint satisfaction and a Random Forest model (0.40 MAE) for resource forecasting.
- Successfully deployed the application via Docker on AWS to ensure scalable and reliable performance. **Technologies**: React.js, FastAPI, Python, MySQL, AWS, Docker, Machine Learning.

SkillSwap – Skill Exchange Web Platform

- Developed a full-stack web platform for skill exchange featuring intelligent user matching and real-time chat functionality.
- Implemented RESTful APIs and user authentication and deployed the application on Google Cloud Platform (GCP). **Technologies**: React.js, Node.js, Express.js, MongoDB, GCP

Knowledge Sharing Platform

- Developed a web-based knowledge-sharing platform using Laravel and MySQL, featuring discussion forums, Q&A sessions, and resource libraries for knowledge exchange.
- **Technologies** Laravel, PHP, MySQL, Blade, Bootstrap, JavaScript, HTML, CSS

CERTIFICATIONS

- Google Gemini Certification for Students - Google for Education (2026)
- Google AI Essentials – Google (2025)
- AWS Educate: Introduction to Cloud 101 - Amazon Web Services (2025)
- Docker Training Course for the Absolute Beginner - KodeKloud (2025)
- Postman API Fundamentals Student Expert - Postman (2025)
- Git for Beginners - KodeKloud (2025)

LEADERSHIP & ACTIVITIES

- Event Coordinator, FOSS Community, Uva Wellassa University (2024/2025)
- Volunteer, IEEE Opening Day (2024)
- Organizing Committee Member, Leo Chelonian Trails Project (2024)
